HOW DID YOU USE THE EDP IN YOUR ENGINEERING DESIGN PROJECT?

INSTRUCTIONS: For each step of the Engineering Design Process, write:

- o How you did this step (mentioning specific *handouts, notebook pages, and/or class activities*)
- o Why you say that this assignment or activity was a part of the step

The first step is completed for you, as an example.

STEP	HOW YOU DID IT	EXPLANATION
1. Define the problem	<i>We completed Page One HW 8 (Brainstorming Your Organizer).</i>	<i>This was how we defined the problem because we answered questions about what needed to be organized, why it needs to be organized, and how we might fix it.</i>
2. Research the problem		
3. Develop possible solutions		
4. Choose the best solution		
5. Create a prototype		

6. Test and evaluate the solution		
7. Communicate the solution		
8. Redesign	<i>Note: this is the only step we did not complete for this project.</i>
