

Plate Tectonics Claymation: Day Four Reflection

DIRECTIONS: Answer each question in a full sentence.

1. Name your partners for this project. _____

2. Look back at the work you have done so far. Everyone in the group probably had slightly different ideas about what they wanted their Claymation to look like. Is your final Claymation going to look exactly as you had wanted? _____
_____ If not, how did you have to change your ideas? What compromises did you have to make with your group members? (Example: "I wanted to show a volcano erupting, but my partners didn't. I had to give up my volcano idea. But my partners let me keep my idea of putting trees and houses into the Claymation.") _____

3. Did you and your partners have any conflicts (disagreements) over how to do your Claymation? _____
If so, how did you solve them? _____

4. Write exactly what you and your partners got done today. Write at least three sentences.

5. What would you like to get done tomorrow? Write a step-by-step "to do" list for tomorrow.

- a. _____
- b. _____
- c. _____
- d. _____
- e. _____
