

Web Accessibility Policy

A. Web Accessibility Policy Statement

CCSC is committed to providing all users of its websites, including users with disabilities, with meaningful accessibility in this online environment. CCSC shall generally follow the standards used by the federal government for technology accessibility for individuals with disabilities and web content accessibility guidelines developed by the World Wide Web Consortium (W3C). CCSC's websites are tested and reviewed by users to verify that the websites are compliant with applicable standards.

B. Portable Document Format

Some documents on CCSC's website are produced in portable document format (PDF). In order to improve viewing these files, CCSC recommends that users download the latest version of Adobe Acrobat Reader, which is available for free at the Adobe web site. Alternative accessible formats also are provided, where possible, most commonly through a text or an HTML file.

C. Contact Information

The CCSC shall take the necessary steps to ensure that a copy of the preceding two sections of the web accessibility policy statement set forth above is posted on the CCSC's website along with a statement as to how to contact the CCSC if assistance is needed in accessing material on the website.
